There are 77M of us, and we are not dead.

There has yet to be a decision about what to do with the Arizona electors, as well as those of the other States.

If there are any people with grey hair willing to stay in town, NOW is the time to make an appointment to talk to your Congresscritters.

The entire nation didn't turn against us, just the talking heads on tv and a couple of pricks in Congress and on social media, we just fired them as a Nation. President Trump, appoint your emergency Congress. You are still the president and the American People will support you. Use the emergency broadcast power to air the Epstein evidence to the nation. Let them see what these satanic cannibalistic pedos have been up to. LETS END THIS. PLEASE.

He won't. His call for peace should be considered a de facto concession.

He has opted to become our Tiberius Gracchus, the good populist politician who fought for the people but was ultimately thwarted by the establishment while maintaining his anti-autocratic principles to the very end.

No, WE'RE the nation, and a small group of sociopathic oligarchs and their thugs turned against us. Well, they would have if they were ever for us to begin with. They're outnumbered, not us

AFAIK, no cops were hurt or killed and there is very little property damage.

I don't think the nation has turned against us.

It seems like it was a stupid move to break into the Capitol, and I tried to tell people not to do it.

On the other hand, I'm not sure what the overall effect of this will be. It certainly shows that many people are pissed off.

You won't be able to.

When the Democrats control the executive branch, they'll *treat* you like terrorists, exactly like the OP said.

They don't need to do that to all 80 million... just enough, just a few at a time, and it's over.

If we don't act decisively, swiftly, violently, even chaotically now... it's over.

We were betrayed by the hopium pushers who convinced everyone here that a second Trump term was a foregone conclusion with all these goddamned conspiracy theories about the insurrection act and Epstein being alive and people constantly posting “BIDEN IS DONE” with no other information and a hundred other types of LARPy shit. Gee, I wonder if anybody in DC today thought all that stuff was real and didn't pan out so they'd have to take matters into their own hands. I am so mad at the hopium junkies I can't see straight. We played ourselves.

Yes.

But they JUST stole the presidency, the House, and the Senate, and next, will attempt to pack the Supreme Court.

Your attempt to rationalize this away are really, really, dangerously wrong.

Supreme Court was already fucked, throwing more judges in changes maybe a few cases that they feel they can be bothered with. As for me rationalizing things I assure I'm aware things will get dark and hard for sometime, hopefully we've all been preparing if some of you haven't best get on that today

It's been shown time and again once violence of any kind is used justified or not makes support for your cause to drop. The bitch ass msm and big tech will just beat normies or the head with this to sway public opinion. I think today might have really hurt trump ever trying to run again. That isn't being a doomer it gave the retarded uniparty what it wanted.

Trump was never going to be able to get anywhere near any political office if things weren't turned around here. The msm and big tech have always been hostile to anything that doesn't fit their narratives or world views, and normal people will just stay on the fence only going as far as social media posts

What people want and what they get from government at least are always two different things, we'd be better off with a small federal government but won't get that with the current people running things maybe not ever too much money flows to them to want to scale things down

That is correct, but remember there are 75+m real votes for what Trump was leading into. This is NOT over, but we have to get off our high horse, roll up our sleeves and DO something. Not just on FB, not just on T_D, but in real life. Run for school boards, run for mayors, run for state offices. EVERY LAST ONE OF US need to be an election

volunteer. We CANNOT let this year end it. It will be difficult to organize, but it can be done. You can be sad today, you can be mad today, but if you go back to life tomorrow the same way you entered today, you are quitting.

We thought we had the presidents back, that we were marching for justice and this was the peoples building, our building. Instead the media will drone on and on now that we are violent and this is un-American. The politicians will use this as a means to Crack down more and use more force. The Left and the dems will use this to further belittle and deface us. They will make terrorists of those to entered the building and make Roberta no victim. They will make sure we never have a populist movement again. Through it all, it wasn't that we failed, it was that we did not succeed in making our point and leaving our mark, they will make of us traitors now and our suffering will only truly begin.

No other Nation on Earth is stupid enough to do that...but we did. Now we pay the Ultimate Price. But like that Father who'd daughter was Raped by an Illegal and found dead in a Corn Field said "At least we've got Ethnic Food!"

Shit is definitely going to get crazy over the next few years. This is not the last time the capital will be over run. The populist right and progressive left are both going to be raging against the establishment for a long time to come and it is going to get a hell of a lot uglier than it is now. We are now entering one of the most destabilized times in American history. At least half the country entirely distrusts and despises the government. We are entering one of the worst economic depressions in history due to the continued lockdowns imposed by the government. Tens of millions of people are going to lose everything they have in the very near future. I'm predicting over the next few years we will see hundreds of domestic terrorist attacks against the government carried out by people with nothing left to lose and nothing to live for but revenge. An "Arab Spring" type era is unfolding in America. I don't know what the end result will be but the next few years will definitely have a name in the history books.
